Empathy + Innovation

Minipack, Inc., an Enterprise Workforce Development and Agile Software Solutions Company, headquartered in Maryland, USA. Minipack is a leader in Enterprise Workforce and Agile Solutions Development. We work with Organizational Leadership and Teams; help them build lean-Agile, customer-centric, learning organizations; and succeed. We also offer customized, project based immersive learning workshops for Enterprise and Startups to meet each organization's unique needs. We provide upskilling and reskilling programs to transition workforces to adopt new technologies and lean-agile product innovation and product development practices. Our goal is to equip organizations at all levels with future-ready capabilities to thrive in an evolving landscape.

Differentiators

- **4-week Dojo™:** Each training, workshop and certification session comes with proprietary, immersive, projects-based, experiential learning to reinforce and cement learning through doing.
- **Elite Team:** Our coaches and instructors are all industry veterans and subject matter experts in their respective fields.
- **Enterprise and Startups:** We have decades of ongoing hands-on industry experience, guiding enterprise and startups in Product Innovation and Development.
- **Breadth of Methodologies & Practices:** We offer training across a wide spectrum of Agile Product and Project Management Practices and Enterprise Product Innovation.
- **Proven results:** We have trained, upskilled, reskilled 500+ learners, including leadership and teams. We have coached, mentored and trained social and public sector enterprises and startups in Asia, Europe, Africa, and the United States.

NAICS Code

- 611430 - Professional & Management Development Training
- 518210 - Data Processing, Hosting, and Related Services
- 541511 - Custom Computer Programming Services
- 541512 - Computer Systems Design Services
- 541519 - Other Computer Related Services

Past Performance

- Our expert instructors have successfully coached trained and prepared employees for SAFe 6.0 Scrum Master certification, providing hands-on experience with Jira and Azure DevOps (ADO) to ensure participants are ready to deliver results for their organizations immediately upon completing our program.
- We trained upskilled, reskilled 500+ learners, including executive leadership and teams in Federal Agencies, Enterprise and Startups. Agile and DevSecOps Transformation at several Federal Agencies, including USDOJ, NIH, USCIS. Led and oversaw adoption of SCRUM, Kanban, SAFe, DevOps, Test Automation and Lean-Startup practices from scratch.
- Agile and DevOps transformation, Strategic guidance of Executive leadership and training of teams at NCBI/NIH. Coached IT leadership and Teams on Agile Software Development. Coached Software Teams on dual Agile and DevOps Transformation. Helped break decade old knowledge silos, retire 15-year-old tech stack and ship working software
- On-premises to Amazon AWS cloud migration of Enterprise CMS based Federal Site with over 150,000 contents and millions of hits per month. We accomplished it with near zero downtime and high client satisfaction and got featured in Drupal GovCon 2015
- Successful and timely migration of on premise, proprietary CMS to cloud-hosted, open-source CMS. Built secure, mobile friendly, multilingual, 508 compliant public service sites that continue to reach and educate millions and that routinely handle over 10 million hits per day spike traffic.
